

## **DAY SERVICE MODERNISATION ALTERNATIVES TO SPECIAL CARE UNITS A PRACTICAL APPROACH**

### **A PRACTICAL TWO DAY WORKSHOP Thursday & Friday 28<sup>th</sup> & 29<sup>th</sup> September 2006**

The Jupiter Suite, Globe Centre, St James Square, Accrington BB5 0RE

Although progress is being made in terms of modernising day services, it is still the case that people seen as having more complex support needs are missing out on opportunities to be fully included in community life. Some people, particularly those with additional health care needs, physical disabilities or issues around behaviour are often seen as harder to support effectively and this can make inclusion harder to achieve.

This practical two day workshop is open to everyone who is interested in developing more positive options for people, including staff and family members.

The workshop will provide participants with opportunities to:

- ⇒ Develop ideas about what may be possible and implement them
- ⇒ Practical approaches to increasing choices and increasing control
- ⇒ Developing alternatives to supporting people in day centres and special care units
- ⇒ Identifying and overcoming barriers to inclusion and participation
- ⇒ Develop skills and practical approaches to building supports in community settings

The workshop will be interactive and participative. As well as a couple of brief presentations, we will be using a range of practical activities and exercises which are designed to increase knowledge and skills for practice. Participants will receive a workshop pack of materials, practical tools and exercises which will help them in putting their learning from the workshop into practice.

This event is open to anyone with an interest in achieving positive outcomes for people. This includes staff and managers working in day and community services, staff from health and educational settings, self-advocates and family members.
