DAY OPPORTUNITIES NETWORK IN CONTROL

Dear Colleague

I am writing to invite you to the next meeting of the North West Day Opportunities Network. The network is open to anyone with an interest in Day Service Modernisation. This includes operational and strategic managers, senior and front-line staff as well as self-advocates and family members.

Date: Wednesday 6th September 2006
Times: 10:00 a.m. – 4:00 p.m.
Venue: The Lancastrian Room, Bury Town Hall, Bury, Greater Manchester
(please note change of venue)
A snack lunch will be provided

The topic for this session is:

IN CONTROL

The National In Control programme has been developed to help people gain control over their supports – and over their lives. It will hopefully have major implications for the ways in which people are supported, and the ways in which supports are organised and provided. To help us find out more about this, we will be joined by Caroline Tomlinson. Caroline is a member of the National In-Control team and has been instrumental in ensuring that In Control got off to a good start in Wigan. This session will give participants opportunities to:

- Find out about the national In Control programme
- Find out about how it is working in practice and some of the success stories and lessons learned
- Work on developing practical strategies and approaches that maximise the choice and control that people have in their lives

If you wish to attend this session, please complete and return the attached form

With best wishes

Paul Clarke
