

Day Service Modernisation and Alternatives to Special Care Units

8th & 9th February 2007

**NWTD Training Room, The Globe Centre
Accrington BB5 0RE**

10.00 am – 4.00 pm

Concerned about people with higher support needs missing out on opportunities around day service modernisation?

One of the issues that often causes concern around the modernisation of day services is how people who are seen as having higher support needs are going to be given opportunities to be supported away from day centres.

There is evidence which suggests that people who have needs around health support, people who are seen as having behavioural issues, or people with additional physical disabilities are less likely to be included in their communities or to lead fulfilling lives.

This session is aimed at people who are involved in providing services to people with higher support needs, be they working in day services, family members, members of partnership boards (or sub-groups), or managers of services.

The workshop will provide opportunities to look at good practice, what is happening in particular areas of the North West, and to plan what actions need to be taken to make modernisation a positive reality for all people needing support.

COST: £60 + VAT @ £10.50 = £70.50 per person for the two day event.
