

Getting A Life Network

8th June, 5th October 2010

9:30 am - 3:45pm

Venue: Suite 2, Waterside, St. James Court West,
Accrington BB5 1NA

Come Along and Learn

The network's aims are to ensure that ethnicity issues are shared, discussed and acted upon to ensure fair, appropriate services for everyone.

One of the major barriers that stops people with learning disabilities from having real choice and control over their lives is the way that different local services, planning and funding happens. Sometimes this is because of local decision making and sometimes it is because of national policies that don't fit together well.

We need to be more focused on employment support and day service change fitting together in a way that helps people have more control over their daily lives. The network aims to support people involved with the planning, provision of day opportunities to think about what progress has been made, what the priorities are for the future, to share and learn about good practice across the North West and to plan what actions need to be supporting.

Working towards better futures for people
